### APPEAL FOR ASSISTANCE:

### 21 YEAR OLD BREAST CANCER PATIENT NEEDING URGENT TREATMENT

Being diagnosed with breast cancer is traumatic at any age but for one young Swazi woman diagnosed recently with an advanced and aggressive form of the disease at the age of 21 years this has become a frightening reality. Fikile\* was diagnosed 3 months ago via SBCCNs free clinic and is urgently in need of treatment. In spite of her young age Fikile is facing this situation with positivity and determination and always keeps a smile on her face. She still has a chance to fight this awful disease and even win but without vital chemotherapy treatment she faces an uncertain future. SBCCN is working to assist this worthy young woman as she faces the fight of her life but we need your help to raise the R70, 000 needed for her full treatment! It is a daunting amount but we believe that little drops of water create a mighty ocean so if you can please donate, big or small you will be helping save this young energetic life!
